

Tricaster. Portable **Live** Production

Limitless Possibilities

TCXD850

TCXD300

Tricaster makes it possible for you to deliver your brand of professional network-style television from anywhere at anytime. TriCaster is the industry standard and the most innovative, easy to use and affordable solution available for live production and streaming.

Tricaster. Go Places.

Produce

- capture your content
- include video clips
- create impressive titles and graphics
- add breathtaking special effects
- edit to perfection
- record on the internal hard drive

Present

- combine live video with recorded video and audio clips
- add professional titles and graphics on the fly
- overlay Powerpoint presentations from any number of networked computers

Stream

- record and stream live or on demand over the internet
- train employees and clients worldwide
- reach your congregation at home or internationally
- broadcast to family, friends or members of your group that can't attend events in person

Available in both **HD** and Standard Definition.
